

## Oreo Moon Phases Helper Handout!

Use the images and hints below to assist you on today's activity.

The phases:

2 freebie phases:

**1** **New Moon**  
Completely (or almost completely) dark.

**2** **Waxing Crescent**  
A small sliver of light on the right.

*Hints:*

The new moon is the phase with its 'back' to the Sun's rays.

The new moon is opposite the full moon.

The waxing phases are on their way to the full moon.

The waning phases are on their way to a new moon.
