

# The Big Idea

Groups: No, you do this by yourself

## The Task::

Read an article. This could be from the times, scientific American, wall street journal, etc. It should be related to science in some way. Find another article related to this first article from a different source. Tell me the following:

1. What is the main idea of this article?
2. Why should I care / what influence does this have over my life?
3. What are two questions you have for the author? (good questions!)

Hand in the following:

- a. both articles, holes punched in the corners so that they can be put into a 3 ring binder.
- b. your analysis. 1 page maximum no longer. Size 12 font, times new roman. 1 inch margins. don't be verbose. answer the questions.
