

## The Order Mat

**Directions:** Chronologically place below each rock layer, from youngest to oldest , that you've cutout from the handout entitled "**Build It Up**". This order should be done based on your comparison of DNA samples shown in the gels on the handout "**DNA Match-up**" and the use of the information in the Earth Science Reference Tables (pages 8 and 9).

A large, empty rectangular box with a thin black border, intended for students to place their rock layers in chronological order from youngest to oldest. The box is currently blank.
